

LEADERSHIP FOR A COMPLEX WORLD

Leadership in the Settlement & Integration Sector

Free Webinar

September 22, 2020

10:00AM - 12:00PM MST

In this 2-hour **free** webinar we will explore leadership in the settlement sector in three parts: Defining and exploring the unique leadership domain and personal leadership competencies, an introduction to systems, and developing leadership competencies. These three parts will help us build a better understanding of organizational leadership and how we can influence change in complex environments, helping us to lead our teams and organizations in these volatile, uncertain, complex, and ambiguous times.

This webinar is hosted and delivered by Avery Acheson, a Masters of Global Leadership student at Royal Roads University and former leader in the sector.
